Judgment

LONDON

Printed for the Company of Stationers

*Judgment Astrological deduced from the
Scheme of the Suns Ingress into that
Equinoctial Sign Aries.*

THe Ascendant or first House in any Revolution-figure of the World, according to the best Masters in Astrologie, always hath signification of the common People, and the general Affairs carried on in that Nation or Country for which the Scheme was erected. Consideration being had to the Lord of the Ascendant, Lord of the Figure and the Moon, which is a general Significator of the common People, and thus I begin my Judgment.

1. Here I find 28. Degrees of that moderate Sign *Libra* ascending *Venus* Lady thereof, posited so strong in her own essential Dignities, and free from the Malevolent Aspects of the Infortunes, viz. *Saturn* and *Mars*; hence I should conclude that the condition of the People should be very good, and that they should enjoy Peace, and Love one with the other, and to confirm this Judgment: *Venus* is Lady of the Figure and is in strong Reception with the Moon, who is a general Significator of the common People, and those Commodities signified by *Venus* should bear a good Price.

Secondly, from the second House and Lord thereof, Judgment is deduced concerning the substance and support of the Nation or Kingdom, and in this Vernal Figure finding *Mars* Lord of the second House placed in the 10th Retrograde, and in square of *Jupiter* who is posited in *Geminis*; hence I should conclude that there should be great complaint for the want of Trade and Monies, and the greatest should be in and about London; for *Jupiter* is posited in *Geminis*; London's Sign, yet this should be

in part mitigated, for *Mercury* who is Disposer of *Jupiter*, is in Reception with ♂ by Houses, and *Mercury* applies to a *Sextile* of *Jupiter*, yet *Mercury* being under the Sun's beams, acts with little or no force, he likewise being an inferior Planet: Yet *Venus* being Lady of the Ascendant, and giving Virtue to *Mars*, she being the lesser Fortune, may somewhat assist him in his weakness, for you must understand what *Mars* bindeth, *Venus* looseth, and what *Saturn* bindeth, *Jupiter* looseth.

Thirdly, Judgment deduced from the third House. *Jupiter* being Lord thereof posited in *Gemini* in the 8th. in his Detriment, and *Mars* casting his squinting Aspect upon him out of the 10th. House, these are Arguments of little Love amongst Neighbours and Relations, there Inland Journeys should be very bad, for *Mars* Lord of the 7th. posited in that barbarous Sign *Virgo*, threatneth them with Robberies, and many private Murtherings. There are several more Testimonies to be considered, but to be brief I shall pass them by, and come to Judgment of the fourth House.

Where I find 7 degrees of that sober Sign *Aquarius* descending, and *Saturn* Lord thereof, posited in the 9th. in his Detriment, this pretends no happy and hopeful issue of Affairs agitated during this Revolution; for how can we expect a good end, where you may see by the Figure the end it self is bad? and not only so, but it denotes a late Harvest, and very moist, for *Saturn* in *Cancer* portends no less, yet *Jupiter* being in *Twine* to the Cusp of the fourth House, doth in part assist *Saturn* in his weakness, for *Jupiter* is a real Friend to *Saturn*, likewise *Saturn* is exalted in *Libra* the Sign ascending, and *Venus* Lady thereof applies to a *Sextile* of *Saturn*, so it is probable that the Year may end better than many repining disturbed Spirits do imagine it will.

Fifthly, upon the Cusp of the fifth House descends 12 Degrees of *Pisces*, *Jupiter* Lord thereof posited in his Detriment, the *Dragon's Tail* and the *Mas* in the fifth House,

House, *Mars* in Opposition to the Cusp thereof, and in Square of *Jupiter* who is Lord of the House, from these Configurations no pleasant Judgment can be deduced, therefore judge that this Year will produce many obstructions and other dangers, and difficulties to Women with Child, and in Child-bed, strange kind of debaucheries and notorious exploits acted, many Infants privately murdered and made away, for *Mars* in square of *Jupiter* portends no less. *Jupiter* Lord of the fifth House, and those exploits will be most acted in and about London, for *Jupiter* is afflicted in *Gemini*, which is that famous City of Londons Ascendant, God preserve it with its many thousands of Inhabitants.

Sixthly, descends upon the Cusp of the 6th House, that fiery Sign *Aries*, *Mars* Lord thereof posited in *Virgo*, in the 10th Retrograde, and *Mercury* disposer of *Mars*, is posited in *Aries*; hence you may conceive that *Mars* and *Mercury* are in Reception by House, and *Mars* being in Trine of *Venus*, who is Lady of the Ascendant, so I perceive that we in England may enjoy Health the most part of this Revolution, and this the rather, for *Jupiter* is in Sextile to the Cusp of the 6th House, yet those Persons signified by *Jupiter* in *Gemini* must not think themselves free from Distempers, for *Mars* in *Virgo* looks askint upon *Jupiter*, *Mars* being Lord of the sixth; the Diseases signified by *Mars* in *Virgo*, are these, Obstructions in the Bowels, Bloody Flux, Worms, Colick, with Pains and Colds in the Leggs, which comes by violent Cholerick Humours. Likewise we must expect some Disease more than natural, amongst our smaller sort of Cattel, such as Hogs, Sheep, and Cattel which are unfit for Labour, for *Jupiter* Lord of the fifth, which is the twelfth from the sixth, doth afflict *Mars* by his square Aspect.

7. Upon the Cusp of this Angle descends 18 Degrees of the Sign *Aries*, *Mars* Lord thereof posited in *Virgo*, in 10th Retrograde in Trine of *Venus*, Lady of the Ascendant; hence I should conclude a Year of Peace, *Venus* in the 7th

House the same, yet it is seldom that *Mars* being in the 10th House, and in a Sign contrary to his own nature, but he stirs up violent Mischief; and chiefly in those Countries under the Sign of his Possession, which here in our Vernal Figure is *Virgo*. Then you must expect those Breaches to fall out in *Greece*, *Achaia*, *Carinthia*, the Dukedom of *Athens*, *Babylonia*, *Paris*, *Basil*, *Gallia*, we in *England* must not think our selves free from want and trouble, for *Aries* is *Englands* Sign, and *Mars* Lord thereof is Retrograde, yet *Venus* being Lady of the Ascendant doth assist him in his weakness, because of the Smiles she casts upon him.

8. Upon the Cusp of the eighth House, I find 21 Degrees of *Taurus*, *Venus* Lady thereof posited so strong in her own Essential Dignities, which in an astrological sense portends but little mortality amongst the People in general, so by this means we need not to fear any raging Distemper to happen amongst us, for *Venus* being Lady of the Ascendant, gives hopes of the same.

9. Upon the Cusp of the ninth House descends 24 Degrees of the Celestial Twins; *Mercury* Lord thereof posited in the 3rd, in *Aries* under the Suns Beams, *Saturn* Lord of the fourth posited in the ninth in his Detriment. This Position is very ill for it.

Threatens damage to the Generous and Industrious Merchants of this Kingdom, especially unto those persons which adventure themselves North or North-East, or East Parts of the World, for *Saturn* in *Cancer* stirs up violent Tempests, and sudden Shipwracks; upon the same ground I may rationally judge in a natural way the condition of the honourable Clergy, of the noble and learned Students in the Law, but for fear I should give the least an Offence, my Pen shall stop at the very Cusp of the House, and I will proceed to Judgment of the 10th House.

Where I find culminating 7 Degrees of that manly Sign *Leo*, the Sun Lord thereof in the fifth House, and
Mars

Mars in the 10th Retrograde: here the Sun suffers an Eclipse of the Moon in the first Degree of *Aries* about fourteen hours and a quarter *post Meridian*. God preserve our Gracious King, and send that he may vanquish and overcome all his Enemies, and that there may be Joy, Peace, and Content on all sides.

11. Upon the Cusp of the 11th House, ascends 12 Degrees of *Virgo*, *Mercury* Ruler thereof, Combust of the Sun in the fifth House, and *Mars* in *Virgo* Retrograde, and *Jupiter* in Square to the Cusp of the 11th, and to *Mars* who is in that Sign, yet the Sun being Lord of the 10th, and it's seldom that *Mercury* is far distant from the Sun, and likewise here we see that *Mars* and *Mercury* are in strong Reception by House, and the Dragons Head in the 11th, and *Mars* in Trine with *Venus* Lady of the Ascendant, and *Mercury* being disposer of *Jupiter* and applying to his Sextile Aspect. Therefore I shall conclude that there will be no want of Supplies upon all occasions, all things performed both for the Offensive and Defensive Concerns of this Nation, with much Grandure and Splendor, against the greatest Opposition that shall or can be made.

12. Lastly, *Venus* doth govern the 12th House, and she being so strong in her own Essential Dignities, we need not fear the least Injury that can be effected by secret Plots and Designs, but when ever any thing of that nature is attempted, it will be most happily and timely discovered; likewise it shews all great Cattel, such as are fit for Labour, will continue in Health and Strength, and thus I conclude my Judgment upon the Vernal Figure,

*Such as it is, Receive, either with Love, or Disdain,
thou that art Ignorant, for I value thee not.*

From my House in *Fullham*

Richard Kirby.

The Angles are partly fixed, and partly movable.

The Sun and Venus Rules the principal Angles, viz. the Ascendant and Mid Heaven, and Saturn and Mars hath Dignities Essential in the North and West Angles.

In this our Vernal Figure, Saturn, Jupiter, Venus, and Mercury are Occidental; and only Mars and the Moon Oriental. Now those Commodities signified by Saturn, Jupiter and Mercury, will bear but a low and mean Price, but those signified by Mars and the Moon, may bear an indifferent good Price, yet not so good a Price neither, because they are both weak in signification, for Mars is Retrograde

Retrograde in *Virgo*, and the Moon is afflicted by the Sun, she being in *Pisces* below the Earth. But those Commodities which are signified by *Venus*, will bear a good Price, being *Venus* is Lady of the Ascendant, and posited so strong in her own Essential Dignities, and having no Affliction at all. The Commodities signified by *Saturn*, be these, viz. Wood, Coals, Lead, Stone, Marble, Black Cloath, all kind of fated Druggs. Under *Jupiter* is Wheat, and the best of Grane useful for Mankind, Saffron, Scarlet-Cloath, and other kind of rich Drapery, the Amethyst, Chrystal, Emerald, Tin. And under *Mercury* we find Quicksilver, and all kinds of Virriolated Medicines, Penny-Coloured Silks, and Stuffs, the Metheasite, to pass with all sorts of Books, Papers, Parchments, Velloms, and all these things signified by these Planets, bear but a low and mean Price. Likewise all Persons signified by these Planets will be but of mean and low Esteem. These Persons signified by *Saturn*, *Jupiter*, and *Mercury*, be these. And first of *Saturn*: Husbandmen, Clowns, Farmers, Old-men, Maulsters, Sectaries, Jews, Monks, Jesuits, Sextons of Churches, and Curriers, Dressers of Leather, Diggers of the Earth, day-Labourers, also Bricklayers, Timmers, and Plummers, Colliers, Dyers of Black Cloath, all dealers in black or sad Commodities, as Blacksmiths. And *Saturn* signifies aged People, *Jupiter* signifies all Judges, Lawyers, young Schollers, all sorts of Clergy-Men, also Cloathiers, Woollen-Drapers, and such like. *Mercury* signifies Philosophers, Mathematicians, Astrologers, Diviners, Advocates, School-Masters, Orators, Secretaries, Scriviners, Stationers, Printers, Accomptants, Money-Changers, publick Notaries, Artificers, Merchants, and all these will not appear in that Splendor, as in other Years, because of their relation to these Planets, viz. *Saturn*, *Jupiter*, and *Mercury*. And but those Persons which are under *Mars*, *Venus*, and the Moon, may be of some Esteem and Credit, which I shall hereafter relate, but first concerning the Commodities which are under their

their Government, and first of *Mars*. Under *Mars* is Iron, Antimony, Arsnick, Brimstone, Oaker, Bricks, Charcoal, Red-Lead, Virmillion, Tobacco, Coffe, all things hot and dry, and sharp or bitter, and relating to Fire, now these things which are signified by *Mars*, will not bear so good a Price as those of *Venus*, because *Mars* is weak and Retrograde.

Under *Venus* all sorts of Wines, Oyls, Spices, Fruits, Sugars, Oranges, Lemons, all sorts of rich Silks, and Garments Ornamental, Musk, Amber, Rich Embroideries, and Coral, Cornelian, Alabaster, Brass or Latten Ware. And under the Moon, all sorts of shell-Fish, and most other Fish, all manner of Juicy Plants, as Coleworts, Cabbage, Melons, and Silver, either in Coyn, or in the Mine or Oars: all these things signified by *Mars*, *Venus*, and the Moon, may bear an indifferent good Price.

Next we come to those Persons signified by *Mars*, *Venus*, and the Moon, and first of *Mars*. Those Persons signified by *Mars*, are Generals of Armies, Captains, Colonels, Souldiers in general, Physitians, Chymists, Apothecaries, Chyrurgeons, Marshals, Gunners, Tobacconists, Iron-Mongers, Coffe-Sellers: and under *Venus*, are Women, generally Maids, Wives, and Widdows, Silkmen, Merchants, Musicians, Linen-Drapers, Painters, Embroiderers, Jewellers, Perfumers, Players, Lapidaries, Gravers, Chisellers, Limners, Picture-drawers, Upholsters, Glovers, and Exchangemen: and under the Moon are Great Ladies, and Women, generally the Common People, Travellers, Vintners, Brewers, Fishmongers, Marriners, Carriers, Coachmen, Midwives, Nurses, and all these will be of good Esteem and Credit this Year.

So much for the Persons, and Commodities signified by the Planets, next I come to speak of other things. In the first place, expect a hot Summer, a mean Winter, and a late Harvest, good cheap garden Herbs, plenty of Hemp, Flax and Hony, great Mortality amongst old People, Feavers, and Tertians shall grieve many People, Mur-
thers

thers, and Robberies shall be committed in many places, and likewise there will be great complaint for the want of Trade and Monies.

According to the Rules of Art, I find *Jupiter* to have most Essential Dignities in the Ascendant Mid-Heaven, and place of the Luminaries; therefore I conclude him to be Lord of the Figure, and finding *Mars* Lord of the second House in the 10th Retrograde, in Square of *Jupiter* who is Lord of the Figure, hence I judge much Prejudice, Loss and Damage may happen to Persons of Dignity and Renown, or such as are Employed in place of great Trust, whether it be Nobility or Gentry, or men of Religious Orders, whether Ecclesiastical or Legal Functionaries, Lawyers and all sorts of men and things signified by *Jupiter*, likewise *Jupiter* being Lord of the fifth, he will cause much Pain and trouble to Child-bearing Women, likewise much Affliction to young Children, *Saturn* being in the ninth House near the Square of *Mercury* who is Lord thereof, threatens much Loss and Damage to the Merchants at Sea, yet *Venus* being Lady of the Ascendant Posited so strong in her own Essential Dignities in *Sextile* to *Saturn*, and *Mars* doth in part mitigate the Evil threatened by them, likewise *Venus* is Lady of the twelfth, hence we may conclude that our great Cattel will stand in Health and Safety, yet we cannot promise that we are free from many private Enemies, because *Mars* who is Lord of the 7th is in the 10th Retrograde and in Square of *Jupiter*, who is Lord of the Figure, yet *Venus* being in Trine of *Mars* doth somewhat mitigate the Evil threatened by *Mars*. This I speak upon good grounds, for what *Mars* bindeth, *Venus* looseth, and what *Saturn* bindeth, *Jupiter* looseth, and as for the Conjunction of the Sun *Mercury* and the Moon in the fifth in *Aries* Englands Sign; I will give the Reader leave to judge of it, yet the Effects cannot be very great, because the Sun and *Mercury* are near to a *Sextile* of *Jupiter*. Though *Saturn* threatens them with his Square Aspect. God preserve our famous

Infamous City of *London*, with its many thousands of Inhabitants from Fire and other Calamities. Likewise God preserve our gracious King *Charles*, and send that he may vanquish and overcome all his Enemies.

I could have said more, but am loath to have my Judgment Clouded, and so come off with Disgrace.

The Position of *Mars* in *Virgo* doth portend much Trouble and Detriment to those places signified by the Sign as he is posited in, as *Achaia*, *Greece*, *Cret*, *Corinthia*, the Dukedom of *Athens*, *Mesopotamia*, *Babylon*, *Assyria*, *Lyons*, *Paris*.

For I must tell you, that there is none but those which are inspired with Divine Inspiration, can predict particulars. Therefore I shall leave that to the Divine Providence of God, who is the Maker, Redeemer and Judge of all Men.

A Scheme of the Planets Aspects, Dexter and Sinister, being Posited in any of the 12 Signes.

Now by the Scheme you may see that a Planet in *Aries* calls a *Sextile Sinister* to ♊ and a *Sextile Dexter* to ♈, and his *Quartile Sinister* to ♋ and his *Quartile Dexter* to ♈, and a *Trine Sinister* to ♊, and his *Trine Dexter* to ♈, and an *Opposition* to ♏. But and if a Planet be Posited in *Libra*, he calls his *Sextile Sinister* to ♈ and his *Sextile Dexter* to ♊, and his *Square Sinister* to ♋ and his *Quartile Dexter* to ♈, his *Trine* to ♊ and ♏, and his *Opposition* to ♈. Understand the like of the rest, as the Scheme will direct better than the writing of many Words, you may also find their Distance by their Circle, &c.

Note to every Day for the week.

Note to every Day in the Week there is appropriated a several Planet, as ☉ to Sunday the ☿ to Monday, and therefore each Planet governs the first hour of the Day, as the Sun Governs the first hour in Sunday after Sunrising, *Venus* the next, *Mercury* the next, *Mars* the next, as by the Table you may perceive; So *Jupiter* governs the first hour after Sunley, and *Mars* the next, the Sun the next, understand the line of the rest.

It will be necessary to shew the signification of each Planetary Hour, and what use may be made of them.

1. In the Hour of *Saturn*, take no Voyage to Sea, neither take any long Journey by Land, for Crosses will assuredly attend, and small success may be expected, take no Physick, entertain no Servant, for they will prove Idle Careless Persons, not good to put on a new Garment, or cut your Hair, but this Hour is good to buy or take Leases of Houses or Lands, good to buy any kind of Grain, or to dig in the Earth, or plow, not good to borrow Money in this Hour, or to fall sick, for it threatens a long disease, and sometimes terminates in Death.

In the Hour of Jupiter.

2. It is good to apply to Ecclesiastical Persons, and all great Men, to obtain their Favour, the same from all grave Senators, Judges, Lawyers; and in this Hour it is good to take a Journey, or to go out of a mans House with success, good to sow all kind of Seeds or to plant, not good to be let Blood in, he that falls sick in this Hour will soon recover, good also to lend or borrow Money in, not good to enter a Ship, not good to buy Beasts, to conclude, this Hour is good to contract Matrimony in.

In the Hour of Mars.

3. Begin no worthy Action or Enterprize, for it is a very unfortunate Hour in all things, and therefore as much as may be to be avoided, it is ill to take a Journey in, for you shall be in danger of Thieves, very ill to take a Voyage to Sea, and generally in all things.

In the Hour of the Sun.

4. It is good to apply and make application to great Persons.

Persons to obtain their Favour; it is not good to begin a building, or put on a new Garment, nor good to enter into a mans own House, for Discontent and Brawling may then be expected to follow, this Hour is good for a Man to receive Preferment in, nor good to Court the female Sex, or lay down Moneys upon any account, 'tis also very dangerous for any person to fall sick in.

In the Hour of Venus.

5. 'Tis good to court the female Sex, or to begin a Journey, but not a Voyage, good to engage upon any Play, Sport or Pastime, not good to be let Blood in, good to go out of a mans House with Success, but not to return in again, good to take Physick in, but if a man falls sick in this Hour, the Disease proceeds from some Venereal Distemper, this Hour is good generally to undertake any Business relating to the Womens Concerns, or any delightful Actions, not good to begin a new Garment, but singular good for Marriage, contracting in Marriage money.

In the Hour of Mercury.

6. It is very good to Merchandize in, viz. buy or sell, to write Letters or send Messengers, to take Physick in, to send a Child to School, to begin any building, but not good to contract Marriage, or buy Houses or Lands, or to return into your own House being abroad, lest Discontent or Brawling arise, but this Hour is good to begin a Journey in, to lend or borrow Money, to put forth an Apprentice, not good to take or hire a Servant, or to redeem a Prisoner, but good to Plant or Graft in, but finally to make Suit to great Persons.

Is the Hour of the Moon.

7. 'Tis not good to buy Cattle in, especially those of the small sort, not good to take Physick in, or begin in any Journey, or begin any building, not good to lend or borrow Moneys in, or to make new Cloaths, it is good to court the female Sex in, or send Children to School, and in some cases to take a Journey or to pursue an Enemy, and to conclude you may make choice of the same to leave your Native Country in, if designed to Travel, but choose another Hour when you return, and are to re-enter your own Country again.

These Significations of the Planetary Hours are very ancient, approved of by the *Arabians*, and confirmed by *Haly* and latter Authors, and are of very good use in many things.

Of the Parts of Mans Body under the twelve Signs,

Of the Parts of the Body Under the seven Planets.

Under *Saturn* is the Spleen, the right Ear, the Brains, the Teeth, the Retentive Faculty throughout the whole Body.

Jupiter rules the Lungs, Loins, Ribs, Sides, Veins, Blood, the Digestive Faculty throughout the whole Body, the Natural Vertue in man, &c.

Mars Rules in the Body of Man, the Gall, the Liver, the Apprehension, the Taste, the Stones, the Face.

Under the Sun the Heart, and *Arms*, the sight of the right Eye, the Back.

Venus rules the Womb, Testicles, Yard, and the Instruments of Generation, the Reynes, Kidneys, the Throat, Womens Breasts, the Milk and Seed.

Mercury is governeur of the Brain, the Rational part, the Imagination, the Tongue, Hands and Feet, the Motional or Moving Parts of Mans Body.

The Moon governs the Body of the Brain or Nerves, the Bowels or Bladder, the left Eye of a Man, and the right Eye of a Woman.

Of the distributions of the Spirits Vital, Animal, and Natural, particular to the seven Planets, the Vital remaining in the Heart, and are governed by the Sun, the Animal remain in the Brain, and are governed by *Mercury*, and the Moon. *viz.* The Moon governs the Brain it self, and *Mercury* operative or working Part of the

Brain, *Jupiter* and *Venus* governs the Natural Part which remains in the Liver, likewise the Sun governs the Attractive Power, *Jupiter* rules the Digestive Power, *Mercury* the Imagination, or Apprehensive Power, the Moon the Expulsive Power, *Saturn* the Retentive Power, so likewise the Signs γ , Ω , Γ govern the Attractive Faculty, Π , \approx , \approx the Digestive, δ , ν , ν the Retentive, and ζ , m , χ the Expulsive Powers, so the Attractive Faculty is ruled by the fiery Triplexity, the Digestive by the Aery, the Retentive by the Earthy, and the Expulsive by the Watry Triplexity.

Now as there are twelve Signs and seven Planets, otherwise called wandering Stars, the twelve Signs take great Power and Might of the seven Planets, and the seven Planets take great Power and Might of the twelve Signs, for the seven Planets be to the twelve Signs, as the Body is to the Soul, for as the Body can do nothing without the Soul, nor the Soul without the Body, no more may the Signs without one of these Planets. *Saturn* is the highest, and next *Saturn* is *Jupiter*, and next *Jupiter* is *Mars*, and next to *Mars* the Sun, next to the Sun *Venus*, *Mercury*, next to *Mercury* the Moon, to these Planets are one beneath the other. Now the wise Philosophers say that from the Earth to the Moon is 15730 Miles, and from the Moon to *Mercury* is 12812 Miles and a half, and from *Mercury* to *Venus* is 12812 Miles and a half, and from *Venus* to the Sun is 22422 Miles, from the Sun to *Mars* is 11725 Miles, and from *Mars* to *Jupiter* is 68719 Miles, and from *Saturn* to the Firmament is 120483 Miles, the Sum of all the Miles is 338445 Miles.

Here

Here follows the Philosophers Devotion.

Sing aloud, his Praise rehearse,
 who hath made the universe.
 He the boundless Heavens has spread,
 All the Vital Orbs has Kept,
 He that on Olympus high,
 Tends his Flock with watchful Eye,
 And this Eye has multiply'd,
 Midst each Flock for to reside.
 Thus around about they stray,
 Touching each with outstretch'd Ray,
 Nimble they hold on their way,
 Shaping out their Night and Day,
 Summer, Winter, Autumn, Spring,
 Their inclined Axis bring.
 Never slack, they none conspire,
 Dancing round the Central Fire,
 In due order as they move,
 Eccho's sweet being gently drove,
 Through Heavens vast hollows,
 Which unto all Corners press
 Musick, that the Heart of Jove,
 Moves to Joy, and sportful Love.
 Fill the listening Sailers Ears,
 Riding on the wandering Spheres;

where neither Speech nor Language is,
 where their Voice is not Transmits.
 God is Good, he is Strong,
 is it all the Creatures Throng.
 He is confessed by every Tongue:
 All things back from whence they Sprung;
 As the thankful Rivers pay,
 what they have borrowed of the Sea.
 Now my self I do resign,
 Take me whole, I all am thine.
 Save me God, from self-desire,
 Deaths Pit, dark Hills raging Fire,
 Envy, Hatred, Vengeance, Dr.
 Let not Lust my Soul bemire.
 Quit from these, thy Praise ile Sing,
 Loudly sweep the trembling String;
 Bear a part of wisdoms Songs,
 Being freed from vain Religions,
 Lo from far I you Salute,
 Sweetly warbling on my Lute;
 India, Egypt, Arabia,
 Asia, Greece, and Tartaria.
 Cormils Tracts, and Lebanon,
 With the Mountains of the Moon,
 From whence muddy Nile doth run,
 Or where ever else you wold;
 Breathing in one vital Air,
 One we are though distant far
 Odours sweet perfume the Skyes,
 Rise at once, let's Sacrifice.
 See how heavenly Lightnings Fire,
 Hearts enflamed which high Aspire.
 All the substance of our Souls,
 up in Clouds of Incense Rools.
 Then Sing aloud, his Praise rehearse,
 who hath made the universe.

These mild Contemplations
 Dost most highly prize,
 And much admire what
 Ignorance, dull, Dullness,
 See, & ignorant intent
 To form thee Learned Skill,
 Nor teach fine Language,

To the Eloquent;
 Therefore I would have name
 All faults for to object,
 Since none can judge
 But those who can correct.
 But First against him
 That thou dost retain
 A milk white skin
 Conscience in thy mind
 And warred with sin,
 Desires and fervent zeal
 Towards God, the King, the Church,

And common use
 Thy yearly Office
 And thy harmless life
 Is to accommodate
 To Country Friends
 Farewell my little Book,
 And take thy part
 And please thy Friends till
 Thou art out of sight
 For all do for the best
 Subjects to be

Why not the Printer,
 And the Astrologer?
 Accept kind Reader,
 What thou findest here.
 Farewell dear Friends,
 Till the ensuing year.

The use of the Almanack is thus: Every Month contains four Pages, as you may see; The first Page shews the Planets Longitude, the second their Aspects, Lunar and Mutual, the third the Saints Days, with the length of the Planetary Hours; the fourth and last shews the Moons four Quarters, with the Prognostication of the Weather.

Thus, the first Column in the first Page shews the Day of the Month, the second the Days of the Week, the third what Planet is Lord or Ruler of each Day, the fourth shews the place of Saturn, the fifth of Jupiter, the sixth of Mars, the seventh of the Sun, the eighth of Venus, the ninth of Mercury, the tenth of the Moon, the eleventh her Latitude, and the twelfth the place of the Dragons Head.

The first Column in the second Page shews the Days of the Month, and the middle six shew the Planets Lunar Aspects, and the last great Column shews their annual Aspects.

The first Column in the third Page shews the Days of the Month, and the second the Days of the Week, the third shews the Saints Days, with the Sun and some Stars rising and setting, the fourth shews the length of a Planetary by Day, and the fifth shews the length of a Planetary Hour by Night.

The fourth and last Page shews only the Moons Changing, first Quarter, Full, and last Quarter, with the Prognostication of the Weather; As for the Moons Change, Full, and Quarters, you will find it writ against each Day of the Month, &c.

To please the world,
Is my Intent;
My Heart to Art,
Is clearly Bent.
